

# Oak Class Year 4/5

## Term 6

Mrs Winter

### Food and Fitness

**Geography:** As geographers, we will develop our map skills to locate counties/ areas and use aerial photography to analyse and compare farming in the UK and USA.

We will be tracking our food supplies and carrying out a food miles survey.

**English:** We will be learning how recipes and instructions are written and continue to develop our skills as story writers, whilst continuing our focus on handwriting, spelling, punctuation and grammar. We will develop our skills as readers to ask and answer questions of our class texts.

#### Science:

This term we will be learning about the life cycle of plants. We will look at food and nutrition and how good athletes need food to assist their bodies.

We will be learning how our body changes and that some are related to puberty and Year 5 will be learning more about puberty and parts of the body.

**PE:** We will develop our ball and racket skills and as part of our Olympic week we will:

- find out about incredible record breakers
- research key Olympic facts
- analyse what it takes for athletes to be at the top of their game
- compare and present sporting statistics
- revise the main muscle groups and the effects of exercise on the body

#### PSHE including RSE:

We will be learning how our body changes and that some are related to puberty, Year 5 will be learning more about puberty and parts of the body, and we will be looking at relationships. Information on RSE is available for viewing on the school website.

**RE:** We will extend our understanding of the key events of Bar Mitzvah and Abraham, and Christianity and worship.

**Maths:** This term starts with maths week, with an emphasis on problem solving and logic. We will be learning about properties of shape, angles, decimals and percentages. We will continue our focus on times table facts and the Year 4's will take the online multiplication check. We will look at statistics, construct graphs, charts and tables related to our studies in food and fitness.

**Computing.** We will learn how we can keep ourselves safe online, develop our research skills and learn how data bases can help organise and retrieve information.

#### The Arts:

In art we will be learning about, and creating our own, observational drawing.

In music we will learn how to compose using tuned and non-tuned instruments, and will be listening to a variety of different musical genres.

#### FRENCH:

We will develop our understanding of how to say what we like or don't like, listen and respond to simple rhymes and recognise some words in the written form.
