

English

We will continue to work on our spellings by using and developing our phonics. We will be studying the book 'National Parks of the U.S.A.' and creating a piece of work with balanced arguments. The question we will be answering is 'Should we feed animals at National Parks?'

We will also be looking at creating postcards to send home from our trip "away!"

Maths

We will be continuing on with Multiplication and Division at the start of this term.

Year 4's will be focusing on our 11 & 12 times tables within Maths lessons as well as continuing with our general times tables practice.

Year 5's will be focusing on percentages this term.

Both year groups will be looking at fractions as well as continuing to use bar charts in Science experiments.

Art & DT

Our focus in art this term will be studying the works of Kandinsky and Miro. We will be looking at expressionism and how artists can be influenced by music and sounds around them.

We will also be creating our very own dreamcatchers!

Road Trip USA!

Term 3 Oak Class Year 4/5

PE

Year 4s will also be developing their swimming strokes and water safety skills weekly. We will also be focusing on Gymnastics during our combined PE sessions.

Computing

We will investigate how we can keep ourselves safe when using technology, carry out research safely and effectively online and plan and present our work online.

RE

We will be looking at the topic of Revelation. How and why do Christians celebrate Epiphany today? What do the various gifts symbolise?

French

We will be learning about the Euro and how to count to 39. As well as describing our favourite sporting activity.

RHSE

Key Theme: We will be developing our understanding regarding setting personal goals and recognising and celebrating our sense of self.

Humanities

Geography - We will be comparing the physical and human features of the US to the UK, as well as studying the state of New York.

History - We will be researching into the past by taking a look at the Native American Iroquois tribe.

Music We will be working on our compositional skills this term. Looking at a range of song writers to inspire us.

Science

We are studying sound this term, focusing on how vibrations travel and create sound. Looking at the anatomy of the ear and how we hear sounds. We will be making models of ear drums, string telephones and using decibel meters. Reporting our findings in tables and graphs. We will also be exploring volume and pitch.
