

Home Learning – Term 4

Option 1 - MUST COMPLETE!

Research a scientist of your choice. You will need this research for your English in Week 3 of this term.

REMEMBER this is for a biography, you will need to research their early life as well as their career achievements!

Option 2

Write a letter to your local MP or Town Council outlining what they could do to become more carbon friendly and protect the environment.

Option 3

Research into climate change in the UK. Make a list of positive and negative impacts it could have on us.

Option 4

Plan and design your own sustainable school.

Remember you should include:

Where will you get your food from?

How can we cut down on waste (paper/rubbish) and pollution?

What energy sources will the school use?

Option 5

Research Greenhouse Gases. What are they? How many are there? Are they good or bad?

Create a poster or fact file about the different Greenhouse Gases.

Option 6

Can you go Carbon Neutral for an entire weekend? Turn off the computer sooner than usual, don't leave the light on when you don't need to.

Keep a diary of exactly what you did to reduce your carbon output!
